| 17. Violas 5 stems, no foliage                              |  |

N.B. Trumpet or Cup Daffodil? If the trumpet or cup is deeper or longer than the length of the petal, then the daffodil is a trumpet. If it is the same length or shorter than the petal, it is a cup.

A split corona has no trumpet or cup but looks as though the trumpet or cup has been split and opened out so it forms a second row of petals.
